

Windrush75 Communities Anchor Project, brings a life-size replica of the HMT Empire Windrush anchor which represents
"Hope, Strength and Belonging".

A GREAT IDEA

February 2022

I believe a monument featuring the Windrush anchor would be a source of inspiration for generations of black, brown and white people in Britain seeking to understand racism, white privilege, and trying to establish a society where citizenship and belonging is for all. Like the Statue of Liberty it can become a beacon of hope and I welcome your messages of support at patrickvernon@btconnect.com

COMMUNITY CONSULTATION

Monday 28 February

6.30pm - 8.30pm (UK) | 4.30pm - 6.30pm (JAMAICA/USA)

An independent campaign to recover the stern anchor of the **EMPIRE WINDRUSH** – the same anchor featured in that iconic photograph of the WINDRUSH having brought the first wave of Caribbean immigrants to London in 1948 – is close to receiving the necessary approvals. To find out more about this ambitious project, which aims to recover the anchor from the depths of the Mediterranean Sea for it to be used as the centrepiece in a public monument celebrating the contributions of the Windrush Generation, meet members of the project team David Mearns and Patrick Vernon OBE.
